

PLANK SYSTEM

MOSAIC

PLANKS & BATTENS

Mosaic is where versatility meets architectural expression. Designed for both exterior and interior applications, Mosaic Planks unlock a wide spectrum of creative possibilities, from subtle details to bold, defining features. Lightweight yet durable, each profile is crafted to adapt seamlessly across scales, styles, and spaces.

Engineered with Lumabuilt's proprietary sublimation process, offering lasting beauty with minimal maintenance. Available in woodgrain, solid colors, and specialty finishes, Mosaic Planks bring the warmth of natural aesthetics with the performance of aluminum, ensuring design freedom without compromise.

Design Flexibility

Available in a wide range of profiles and finishes, Mosaic adapts seamlessly to any architectural style.

Durable

Lightweight yet strong, Mosaic withstands the elements and delivers performance for both exterior and interior applications.

Low Maintenance

Proprietary finishes resist fading, chipping, and wear, ensuring long-lasting beauty with minimal upkeep.

Fire Resistant

Engineered from non-combustible aluminum, Mosaic planks provide added safety and peace of mind for code-compliant designs.

Sustainable

Made from recyclable aluminum, Mosaic contributes to green building initiatives and supports LEED certification goals.

Pest Resistant

Unlike natural wood, aluminum planks will not rot, warp, or attract termites and insects.

Proven. Certified. Trusted.

Every Mosaic system is backed by rigorous testing and third-party certification, ensuring safety, durability, and compliance in even the most demanding environments.

- **Fire Safety Testing** – Verified under ASTM E2768/E84 and ASTM E136 standards, with engineering stamps from California and Pennsylvania.
- **Finish Durability** – Paint systems tested and certified to AAMA 2605 performance standards.
- **System Certification** – Fully ICC certified under ESR-5329 for code compliance nationwide.
- **High-Velocity Wind Approval** – Miami-Dade County HVHZ approved (FL#47190) for hurricane-prone regions.

Installation Made Simple

Mosaic planks are engineered for easy installation, with interlocking profiles that fit seamlessly together on either open framing or a solid substrate. Built-in allowances for thermal expansion and moisture weep simplify performance, while included clips and a full range of matching trims support a complete, polished finish. The system can be directionally installed horizontally or vertically, giving contractors flexibility and speed without sacrificing design integrity.
